Impact Statement

Some Cambridge Prisms Journals (WAT,) require an 'Impact Statement' section. Comment out this section if it is not required.

Insert A head here

This demo file is intended to serve as a "starter file". It is for preparing manuscript submission only, not for preparing camera-ready versions of manuscripts. Manuscripts will be typeset for publication by the journal, after they have been accepted.

By default, this template uses `biblatex` and adopts the Chicago referencing style. If you are using this template on Overleaf, Overleaf's build tool will automatically run `pdflatex` and `biber`. If you are compiling this template on your own local LaTeX installation, please execute the following commands:

1. `pdflatex sample`
2. `biber sample`
3. `pdflatex sample`
4. `pdflatex sample`

Some journals e.g. `journal=aog|jog|pasa` require BibTeX. For such journals, you will need to

- delete the existing `\addbibresource{example.bib}`;
- change the existing `\printbibliography` to be `\bibliography{example}` instead.

Overleaf will run `pdflatex` and `bibtex` automatically as needed. But if you had *first* compiled using another `journal` option that adopts `biblatex`, and *then* change the `journal` option to one that adopts BibTeX, you may get some compile error messages instead. In this case you will need to do a 'Recompile from scratch'; see https://www.overleaf.com/learn/how-to/Clearing_the_cache.

On a local LaTeX installation, you would need to run these steps instead:

1. Delete `sample.aux`, `sample.bbl` if these files from a previous compile using `biber` still exist.
2. `pdflatex sample`
3. `bibtex sample`
4. `pdflatex sample`
5. `pdflatex sample`
