Demonstration  
**Hello Blackness**

Here is another frame style!

- You can set whatever font you like in the preamble. E.g.:
  - `\usepackage{lmodern}` % Latin Modern
  - `\usepackage{helvet}` % Helvetica
  - `\usepackage{verdana}` % Verdana
  - `\usepackage{newtx, newtxmath}` % Times (text and math)
- DTU recommends Verdana but this font type is not available by default on all operating systems:
  - Windows: include the `verdana` package in the preamble and MiKTeX will do the rest;
  - Linux and OS X: before including the `verdana` package in your preamble, run the `install_fonts.sh` script from our package.
